## BERGERAC *Terres Rouges*

### **SOILS :**

Sandy, silty clay soils

### **GRAPE VARIETIES :**

100 % Merlot

### **WINEMAKING :**

« Terres Rouges » means « Red Soils » because the grapes come from a special part of the property, which soils are rich in iron oxides'. Using the grapes from our best land, the gentle punching during the winemaking brings out the best of the tannins. Thus the "terroir" expresses itself, giving a round, fleshy, very fruity wine..  
The ageing is done in vats. This wine presents an interesting aromatic complexity.

*Terres Rouges* is a "pleasure cuvee", an easy wine to drink, full of sensations, pleasant to drink very young and also with a good potential for ageing.

### **PRODUCED QUANTITIES :**

8000 bottles
